PREVIOUS WATERBODY Visited Maine vs Out-of-State

Responses to Previous Waterbody Visited (PWV) question in 2020 are represented in the pie charts. Upper chart shows that 2% of the PWV were out-of-state lakes and the rest were Maine lakes, of which 67% were the same lake where the inspection occurred.

Lower chart shows that, of the Previous Waterbody Visited identified as being from out-of-state, the majority were infested waters.

Previous Waterbody Visited from Out-of-State
