Responses to Previous Waterbody Visited (PWV) question in 2021 are represented in the pie charts. Upper chart shows that 3% of the PWV were out-of-state lakes and the rest were Maine lakes, of which 65% were the same lake where the inspection occurred.

The lower chart shows that about two thirds of boats came from uninfested waters. Within the infested slice, about 86% of the boats were coming from an infested lake within Maine.
